- Bordetella & Lepto vaccines
- Deworming
- Heartworm Prevention
- Canine Influenza

## 4-6 Months \_\_\_\_\_

- Spay or Neuter
- Presurgical Bloodwork
- Heartworm test
- Microchip

**We recommend quarterly deworming for all households with children 8 years old or younger or with immunocompromised family members.**

**75-85% of pets over the age of 3 have dental disease!** Dogs and cats are not supposed to have bad breath. Caring for your pet's teeth is beneficial for both you and your pet. Advanced dental disease can be painful to your pet, not to mention smelly and costly. Ask us how best to care for your pet's teeth.

## 1-6 Years (recommended annually)

- Comprehensive physical exam
- Weight/Body Condition
- Da2PP and/or Rabies vaccines
- Bordetella & Lepto Vaccines
- Canine Influenza
- Fecal Exam and Deworming
- Heartworm Test/Prevention
- Wellness Bloodwork
- Dental exam and discussion
- Discuss behavior & nutrition

**Please remember that this is a wellness schedule.**

**If your pet becomes ill additional tests and diagnostics will be necessary. This schedule will also be modified dependent on your dog's lifestyle.**

## “Senior at Seven”

Pets don't age the way people do—they age much faster. Most pets are considered seniors at seven years of age. Be sure to visit your veterinarian regularly.

## 7-20 Years (recommended semi-annually)

- Semi-annual physical exam
- Weight/Body Condition
- DA2PP and/or Rabies vaccines
- Bordetella & Lepto vaccines
- Canine Influenza
- Fecal Exam and Deworming
- Heartworm Test/Prevention
- Dental exam & radiographs
- Nutritional assessment
- Wellness Bloodwork
- Thyroid check
- Urinalysis

## Recommended Senior Wellness Tests

- Blood Pressure
- Chest/Abdomen X-rays
- Eye Pressure
- EKG-Prior to anesthesia
- Ultrasound abdomen & chest
- Skin mass evaluation
